

# GFC 11

## Alkaline cleaning foam for surfaces

*concentrate*

### Product properties

- foaming cleaning agent
- effective ingredients
- assures the cleanliness even at hard-to-reach places

GFC 11 is intended for the washing of devices and surfaces in the food industry. With its foaming properties the detergent is suitable for cleaning both vertical and horizontal surfaces. The effective ingredients in the product ensure that the product also functions in hard-to-reach places.

### Ingredients

sodium hydroxide, sodium metasilicate, EDTA, benzene sulfonic acid, sodium laureth sulfate, surfactants, foam stabilizers, complexing agents.

### Usage

Pre-rinse the surfaces with 50-55°C water and remove the loose dirt. Make a working solution. Use foam machine, spray bottle or a brush to apply solution onto the surface and allow to take effect for 10-15min. Rinse the dirt and foam off with hot (55°C) water. After that disinfect surfaces.

**NB!** Not suitable for light metal surfaces.

### Working solution concentrations and exposure times

2-4%	20-40ml/l	10-15 min
------	-----------	-----------

### Warning

Harmful if swallowed. Causes skin irritation. May cause respiratory irritation. Do not breathe vapours/spray. Wear protective gloves/ protective clothing/ eye protection/ face protection.

### Physical-chemical properties

Physical appearance: *colourless liquid*

Scent: *distinctive*

pH: *~11*

Solubility: *completely soluble in water*

Density: *1,02 g/cm<sup>3</sup>*

Other info: *Reacts with acids*

### Storage

See the best before date on the package. Store at temperature over +10°C, keep away from direct sunlight.

### Package

25L canister (25,5kg)

200L vat (204kg)

1000L IBC container (1020kg)
