

GFC 2

Acidic cleaning foam for sediment removal from surfaces

concentrate

Product properties

- foaming cleaning agent
- effective ingredients
- assures the cleanliness even at hard-to-reach places
- removes scale sediment, rust stains, emulsifies animal fat and proteins

GFC 2 is intended for the washing of devices and surfaces in the food industry. With its foaming properties the detergent is suitable for cleaning both vertical and horizontal surfaces.

Ingredients

phosphoric acid, dodecylbenzenesulfonic acid, surfactants, foam stabilizers, complexing agents.

Usage

Pre-rinse the surfaces with 50-55°C water and remove the loose dirt. Make a working solution. Use foam machine, spray bottle or a brush to apply solution onto the surface and allow to take effect. Rinse the dirt and foam off with hot (55°C) water. After that disinfect surfaces.

NB! Not suitable for light metal surfaces.

Working solution concentrations and exposure times

2-10%	20-100ml/l	10-15 min
-------	------------	-----------

Warning

Harmful if swallowed. Causes severe skin burns and eye damage. May be corrosive to metals. Wear protective gloves/ protective clothing/ eye protection/ face protection.

Physical-chemical properties

Physical appearance: *liquid*

Scent: *distinctive*

pH: *~2*

Solubility: *completely soluble in water*

Density: *1,24 g/cm³ (20°C)*

Storage

See the best before date on the package. Store at temperature over +10°C, keep away from direct sunlight.

Package

25L canister (25,6 kg)

200L vat (204,8 kg)

1000L IBC container (1024 kg)
