

TORNADO

Drain cleaner

concentrate

Product properties

- very alkaline pH
- dissolves precipitated organic dirt

Tornado is an alkaline cleansing agent for eliminating obstructions in drains and wastewater drains and for preventing future obstructions. Dissolves organic dirt composed of fats, food particles, soap and other similar composition deposited in the waste water drain.

Ingredients

water, sodium hydroxide, phosphonic acid, glycol ether, surfactants, corrosion inhibitor.

Usage

Used as a concentrate. In case of a blockage pour 200ml of the product into the drain. Allow to take effect for 15 minutes (2 hours if needed) and rinse with plenty of water.

It's recommended to pour 100ml of Tornado into the drain once a month to prevent blockages, allow to take effect for 15-30 minutes and rinse with plenty of water.

Warning

Causes severe skin burns and eye damage. Wear protective gloves/eye protection.

Avoid using strong acids at the same time.

Physical-chemical properties

Physical appearance: *colourless* *viscose*
liquid

Scent: *specific*

pH: *12.75 – 13.75 (20°C)*

Solubility: *completely soluble in*
water

Density: *1,10-1,13 g/cm³*

Storage

See the best before date on the package. Store at room temperature, keep away from direct sunlight and avoid freezing to assure the quality of the product.

Package

1L bottle

5L canister
