

VITASEPT®FG

Feet antiseptic

Product properties

- alcohol-based
- contains skin care agents
- wide antimicrobial effect
- decreases excessive sweating of the feet and the resulting unpleasant odour
- eliminates environment suitable for developing fungal infections of skin and nails
- exposure time 30 seconds

Ingredients

isopropanol 60%, ethanol (denat.) 15%, quaternary ammonium compounds 0,2%, skin care agents

Spectrum of efficacy

Product has a wide fungicidal and virucidal effect, eliminates Gram-negative and Gram-positive bacteria.

Very effective against yeast fungi (*Candida albicans*).

Usage

Spray on dry skin and nails covering all needed areas and allow to dry for 30 seconds.

Spray into shoes so that all inner surfaces are covered, allow to take effect for 30 sec (for example bowling shoes, rubber boots, ski boots, army boots, training shoes etc).

Suitable for usage in feet spraying systems and for the disinfection of socks.

Recommended to be used at fitness clubs, water parks, saunas, hotel rooms and other shared dressing rooms and washrooms.

Warning

Highly flammable liquid and vapour. Causes serious eye irritation. May cause drowsiness or dizziness. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Physical-chemical properties

Physical appearance: *colourless, clear liquid*

Scent: *distinctive (alcohol)*

Solubility: *completely soluble in water*

Density: *0,84 – 0,87 g/cm³ (20°C)*

Storage

See the best before date on the package. Store at temperatures 5-25°C, keep away from direct sunlight.

Conformity to standards

EN 1275, EN 13727

Other test methods

RKI/DVV

Package

150ml spray bottle

5L canister
